

This Gurupadigam creator application helps with easy automatic formatting of the Gurupadigam PPT. This application has the following features:

1. Automatic background change.
2. Automatic mentor-mentee photo placement and old photo replacement.
3. Automatic table formatting.
4. Generation of Gurupadigam for parents in PDF form.
5. Generation of Gurupadigam for students in PPT form (3 slides).
6. Automatic sending of parents' Gurupadhigam (in PDF) through WhatsApp.
7. Automatic sending of students' Gurupadhigam (in PPT) through WhatsApp.

This application requires the following:

1. Python 3.10
2. Chrome driver

This application works well on Windows 10 and later versions. Some features may not work in other operating systems.

Install “**Python IDLE**” from the webpage: <https://www.python.org/downloads/>. After installing python, install the following libraries:

1. python-pptx
2. pywin32
3. selenium
4. pyautogui
5. comtypes

Download “**chrome driver**” that matches your chrome browser. To find the version of your chrome open Google chrome. Navigate to : >>> Help >>> About Google Chrome (Example: 138.0.7204.158). For downloading Chrome driver, go to Chrome driver links <https://googlechromelabs.github.io/chrome-for-testing/> or <https://developer.chrome.com/docs/chromedriver/downloads> and download the Chrome driver that matches your Google Chrome version. Unzip and keep the Chrome driver in any of your computer directories.

Download the Gurupadigam creator app from the following link and install it.

[https://www.dropbox.com/scl/fi/gzaxgihytlnldkkkgs1j/Gurupadigam\\_Creator.exe?rlkey=q9tcai4ufc12mw61nrvqfrp31&st=jzglient&dl=0](https://www.dropbox.com/scl/fi/gzaxgihytlnldkkkgs1j/Gurupadigam_Creator.exe?rlkey=q9tcai4ufc12mw61nrvqfrp31&st=jzglient&dl=0)

### Usage of Gurupadigam creator application

After installation, run the Gurupadigam creator app. The following page will open (Fig. 1).

The screenshot displays the 'Gurupadigam Creator' application window. At the top, the title 'Gurupadigam Creator' is centered in a blue font. Below the title, the user's name and title, 'Dr.Edwin Dhas D, Associate Professor (ECE), SIMATS Engineering', are displayed. The interface features three main upload sections, each with a text label, a text input field, and two buttons: 'Browse' and 'Upload'. The first section is for 'Upload the University Gurupadigam PPT', the second for 'Upload your template PPT', and the third for 'Upload the student record (.xlsx file)'. At the bottom, there is a 'Description' label with a corresponding text input field. Two buttons, 'Settings' and 'Proceed', are located at the bottom of the window.

**Gurupadigam Creator**

**Dr.Edwin Dhas D, Associate Professor (ECE), SIMATS Engineering**

Upload the University Gurupadigam PPT

Upload your template PPT

Upload the student record (.xlsx file)

Description

Fig.1

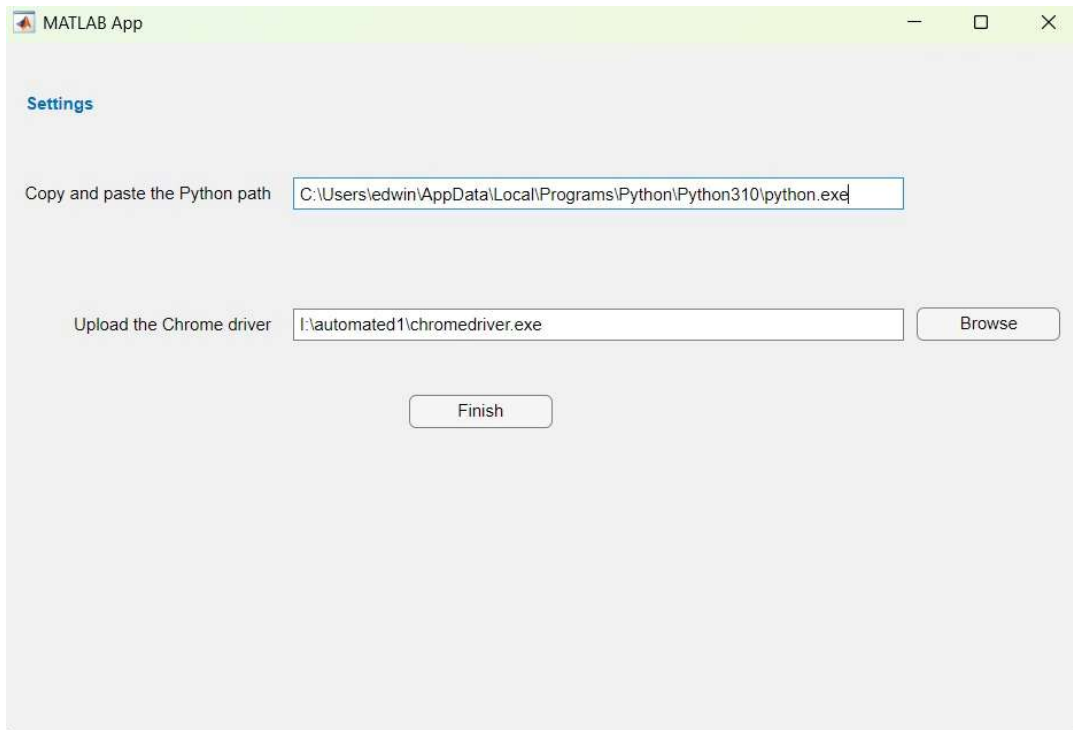

Fig. 2 Layout of Settings

Click the settings button. In the settings window, copy and paste the Python path as shown in Fig. 2. You can find the path by running the command ‘where python’ in the command prompt. Also, upload the Chrome driver.exe and click finish.

**Gurupadigam Creator**

**Dr.Edwin Dhas D, Associate Professor (ECE), SIMATS Engineering**

Upload the University Gurupadigam PPT

Upload your template PPT

Upload the student record (.xlsx file)

Description

Fig. 3 Layout of document loading

Browse and upload the Univeristy PPT, Faculty template and the data.xlsx as shown in Fig. 3. The template of the data.xlsx document is shown in Fig. 4. Once the Upload button is pressed, it will display the number of slides present in the University Gurupadigam, your template, and the number of student details present in the Excel sheet.

	A	B	C	D	E	F	G	H

Fig. 4: Template of data.xlsx file

Once the three document are uploaded, you can click proceed to next step.

#### (a) Automatic background change

Click apply background change button as shown in Fig. 5. The background will be automatically changed, and the resultant file will be present in the Faculty\_File directory. The directory will be created where the source PPT is present.

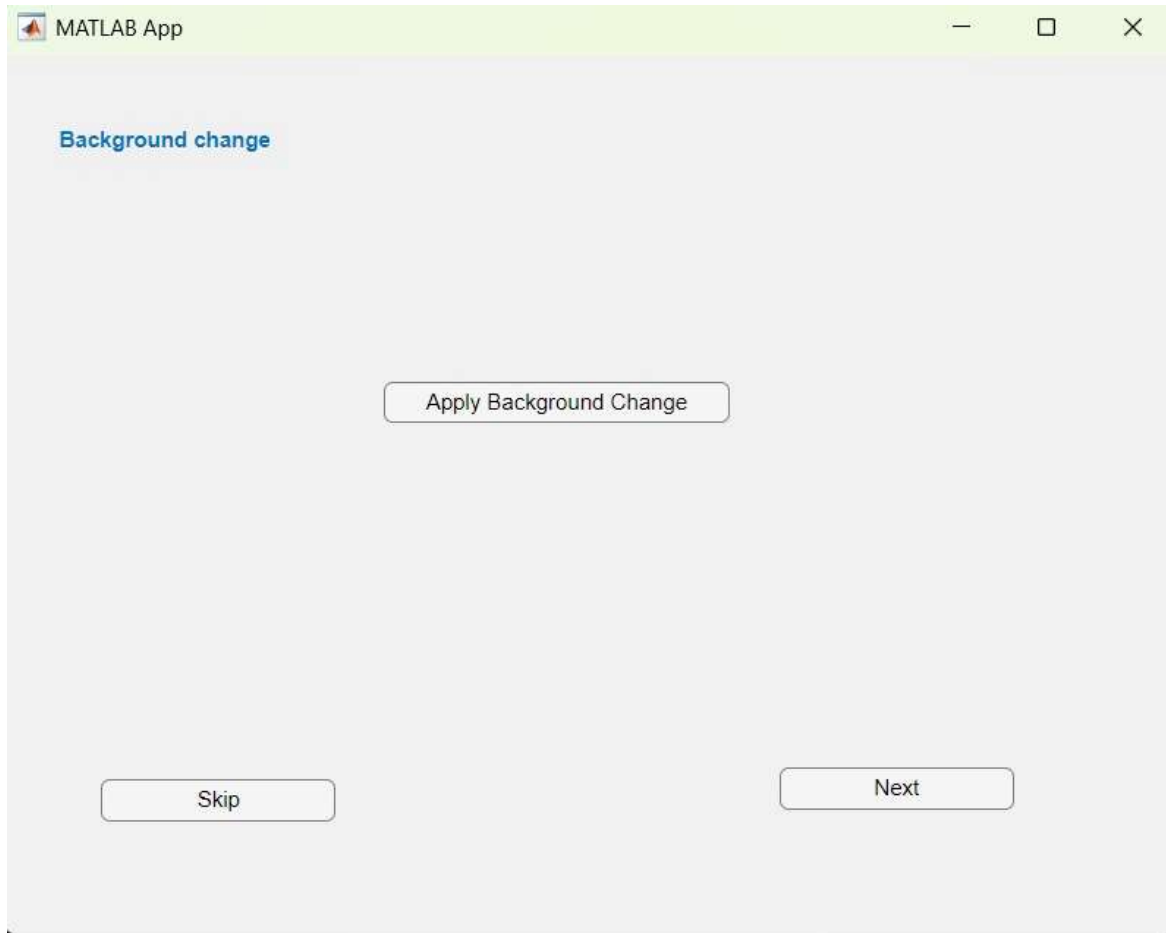

Fig. 5: Layout of background change

### **(b) Automatic mentor-mentee photo placement / photo replacement**

Store the photographs of the mentor-mentee photographs in a directory. Select the directory in which the photographs are stored and then click upload as shown in Fig. 6. The photos present in the directory, along with the student's name, will be displayed. You need to match the name with the photo by selecting the Select button. No need to select the names if the photo is not required. Do this for all the photographs. After matching the names and photographs, click the “Done” button only once and click “Next”. The layout of the name selection process is shown in Fig.7.

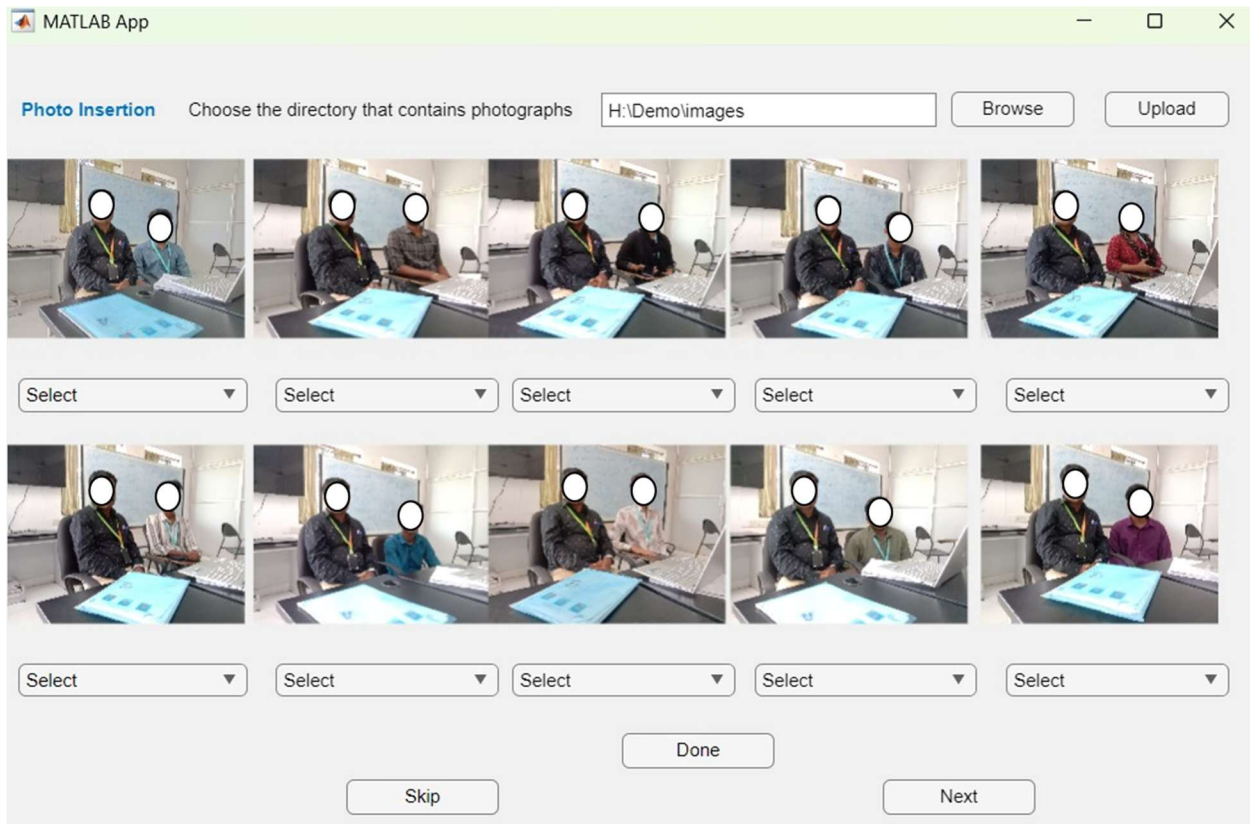

Fig. 6: Layout of Mentor-Mentee photo upload

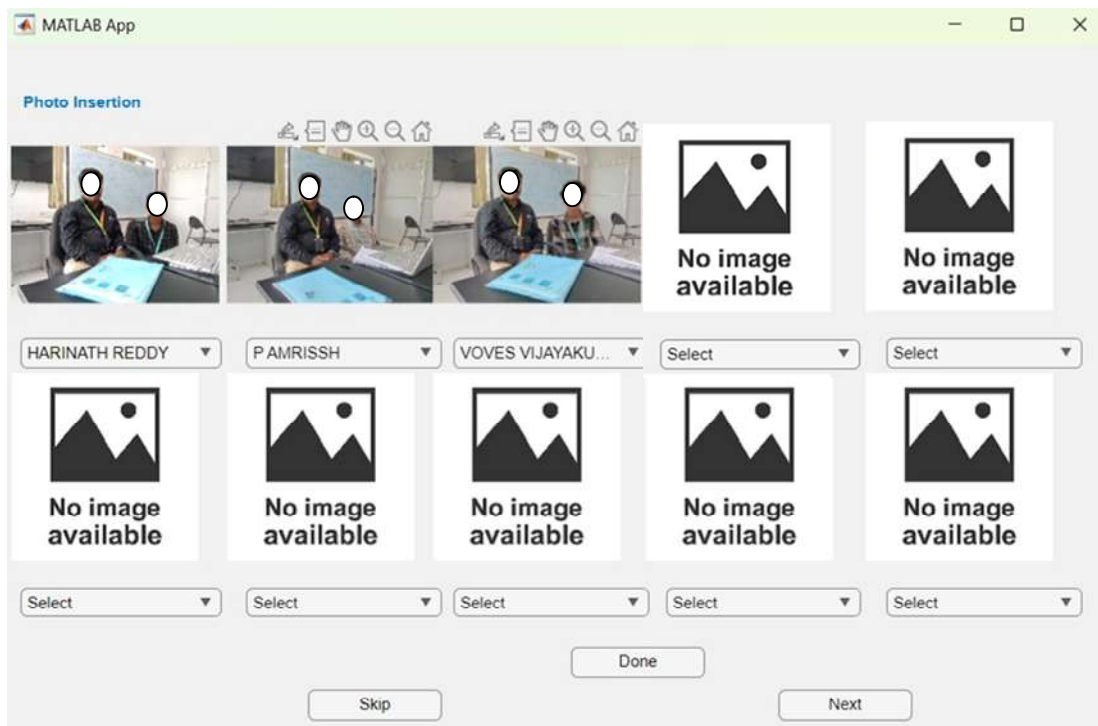

Fig.7: Layout of name matching in Mentor-Mentee photo selection

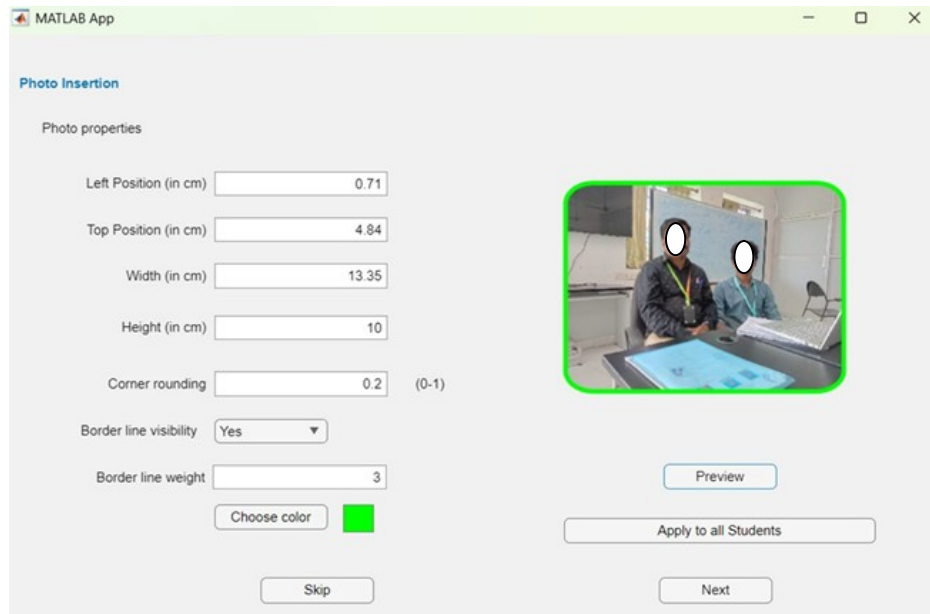

Fig. 8 Layout of photo settings

After matching the names, you can format the photo. This includes the position in which the photo needs to be pasted, width, height, border settings, corner rounding, etc, as shown in Fig. 8. You can preview the image by clicking the preview button. If there is already a photo in the same location, that photo will be replaced by the new photo. The setting you are applying will be stored for next usage. Once the “Apply to all students” button is pressed. All the matched photos will be pasted in the respective PPT slides with the specified settings.

### (c) Automatic table formatting

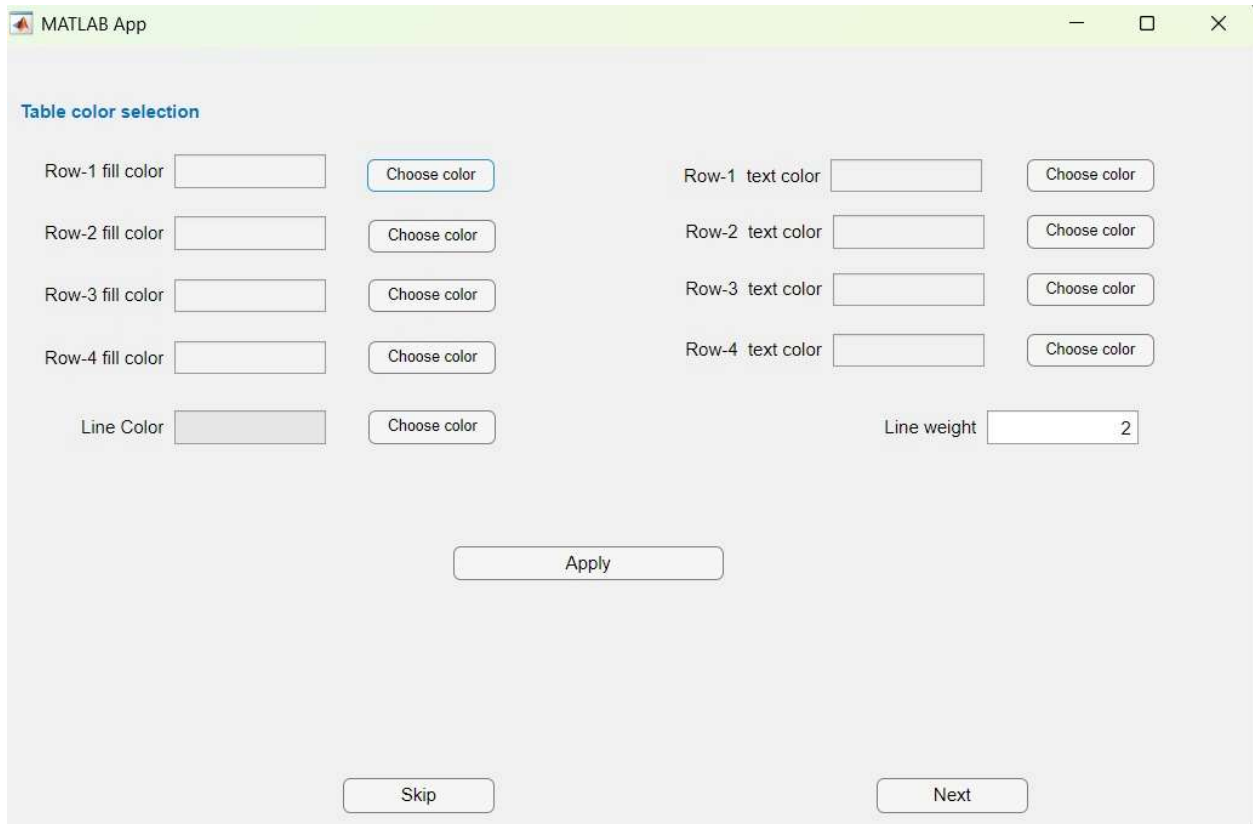

Fig. 9: Layout of table settings

The table color can be easily formatted by modifying the fill color and text color. You can set the fill color for row-1, row-2, row-3, and row-4 by selecting “Choose Color” button as shown in Fig. 9. Once the “Choose color” button is selected, it will show the table that was provided in the University Gurupadigam (refer Fig. 9). You can point the mouse pointer to select the corresponding row colors. You can also select the text colors of each row by selecting the color. You can also select the line weight for the table (refer Fig. 10). Once this setting is completed, you can click the apply button. This will modify all your tables present in your PPT, and the resultant PPT will be stored in the Faculty\_file folder with the name output.pptx.

Click a point to select color

Generate PDF

Skip Next

Fig. 12: Layout for generating the Parents PDF

The window shown in Fig. 12 helps to generate a PDF document that can be sent to the parents. The application will generate the PDF document in the folder named Parents\_file. Once the PDF is generated successfully, the light changes from red to green. If the PDF is not successfully generated, the color remains red. You can regenerate the PDF for specific students by enabling/disabling the tick mark. Kindly ensure the generated document in the Parents\_file is correctly formatted.

#### (e) Generation of Gurupadigam for students in PPT form (3 slides)

**Students PPT document generation** Off ☐ On

1. <input type="text" value="PENUJURI ROHITH"/>	<input checked="" type="checkbox"/>	8. <input type="text" value="DINESH BHARADWAJ"/>	<input checked="" type="checkbox"/>	15. <input type="text" value="Modupalli Bhavesh"/>	<input checked="" type="checkbox"/>
2. <input type="text" value="S. BALU"/>	<input checked="" type="checkbox"/>	9. <input type="text" value="VOVES VIJAYAKUMAR JAYANTHI"/>	<input checked="" type="checkbox"/>	16. <input type="text" value="Katem Sivaji"/>	<input checked="" type="checkbox"/>

Fig. 13: Layout for generating the Students' PPT

The window shown in Fig. 13 helps to generate a PPT document that can be sent to the students. The application will generate the PPT document in the folder named Student\_file. Once the PPT is generated successfully, the light changes from red to green. If the PPT is not successfully generated, the color remains red. You can regenerate the PPT for specific students by enabling/disabling the tick mark. Kindly ensure the generated document in the Student\_file is correctly formatted.

#### (f) Automatic sending of parents' Gurupadigam (in PDF) through WhatsApp

This option helps to send the Students Gurupadhigam PDF generated in the Parent\_file directory to the parents. The generated PDF will be sent to the corresponding parent whose parent contact name is stored in the data.xlsx file. Kindly ensure the document before sending. You must have a stable internet connection for automatic sending of Gurupadigam PDF. The message that needs to be sent along with the Gurupadigam PDF attachment can be entered in the message window. You can stop the WhatsApp message sending process by making the Switch to “Off” position.

The light will change to green color once the attachment is sent. Kindly ensure whether the Gurupadigam is sent to all the parents on your mobile WhatsApp. If the file attachment is not attached within 10 seconds, the message won't be sent, but it still shows green color. You can also select and send to a specific student's parent by enabling the tick button as shown in Fig. 14.

**MATLAB App** [Window Controls]
